NOTES:

- 1/ Income Gap measures the average income required by the poor in order to get out of poverty, expressed relative to the poverty threshold.
- 2/ Poverty Gap refers to the income shortfall (expressed in proportion to the poverty threshold) of families with income below the poverty threshold, divided by the total number of families.
- 3/ Severity of Poverty is the total of the squared income shortfall (expressed in proportion to the poverty threshold) of families with income below the poverty threshold, divided by the total number of families. This is poverty measure that is sensitive to income distribution among the poor.
- 4/ Number of deaths, missing persons and directly affected persons attributed to disaster is not on per 100,000 population
