Philippine economy grows by 6.2 percent in 2018

The Philippine economy grew by 6.2 percent in 2018. This was slower than the 6.7 percent growth recorded in 2017. Manufacturing; Trade and Repair of Motor Vehicles, Motorcycles, Personal and Household Goods; and Construction were the main drivers of growth for the year.

Among the major industries, Services recorded the fastest growth of 6.8 percent. This was followed by Industry with 6.7 percent; and Agriculture, Hunting, Forestry and Fishing (AHFF) with 0.9 percent.

Among the sub-industries, five (5) posted faster growth in 2018: Public Administration and Defense; Compulsory Social Security grew by 15.2 percent; Construction, 14.9 percent; Other Services, 7.7 percent; Electricity, Gas and Water Supply, 5.5 percent; and Transport, Storage and Communication, 5.4 percent.

On the other hand, the following sub-industries posted slower growth: Financial Intermediation, 7.2 percent; Trade, 6.0 percent; Manufacturing, 4.9 percent; Real Estate, Renting and Business Activities, 4.7 percent; Mining and Quarrying, 1.3 percent; Agriculture and Forestry, 1.1 percent. Fishing declined by 0.2 percent.

In terms of the share to the country's total Gross Domestic Product, Services accounted for 57.8 percent of the total GDP. Industry recorded a share of 34.1 percent while AHFF comprised 8.1 percent of the national economy.

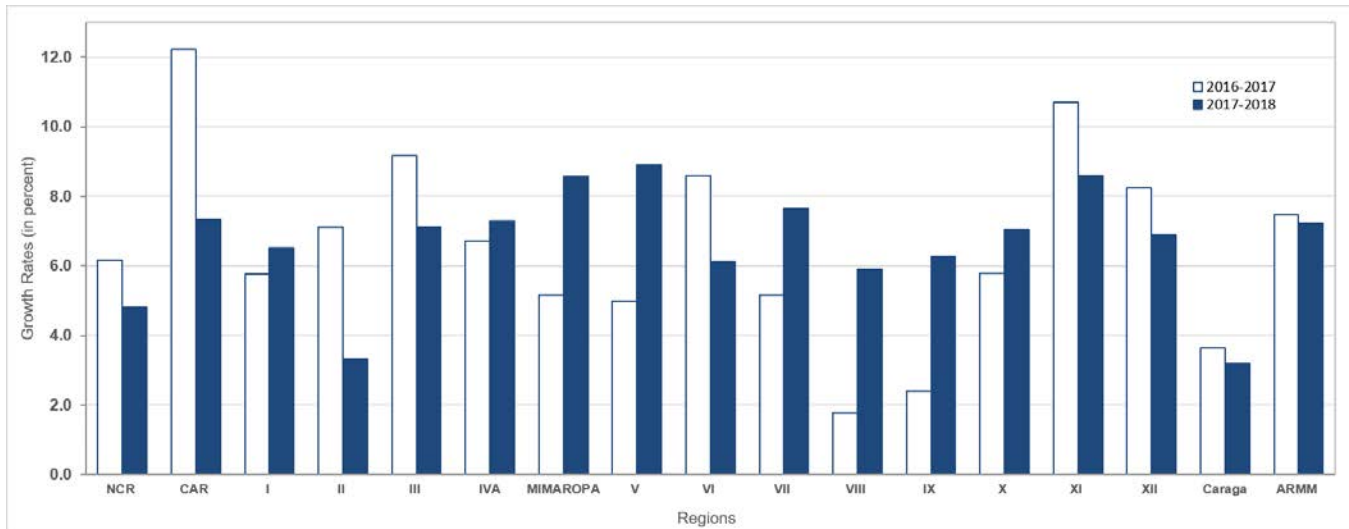

All regional economies grow in 2018

The economies of all seventeen regions grew in 2018 with Bicol Region growing the fastest at 8.9 percent followed by Davao Region and MIMAROPA, with 8.6 percent.

Despite being among the fastest growing economies in 2018, the growth of Davao Region slowed down. The following regions' economies also grew, but at a slower pace as compared with the previous year: Cordillera Administrative Region (CAR) grew by 7.3 percent; Autonomous Region in Muslim Mindanao (ARMM), 7.2 percent; Central Luzon, 7.1 percent; SOCCSKSARGEN, 6.9 percent; Western Visayas, 6.1 percent; National Capital Region (NCR), 4.8 percent; Cagayan Valley, 3.3 percent; and Caraga, 3.2 percent.

(at Constant 2000 Prices, in percent)**

NCR continues to account for the largest share of the national economy

NCR continued to account for the largest share of the country’s Gross Domestic Product (GDP) at 36.0 percent. It was followed by CALABARZON with a share of 17.0 percent and Central Luzon with a share of 9.8 percent.

In terms of contribution to the GDP growth rate of 6.2 percent in 2018, NCR contributed the most with 1.8 percentage points, followed by CALABARZON with 1.2 percentage points and Central Luzon with 0.7 percentage point. All other regions contributed positively to the growth of the national economy.

Economic Performance of the Regions

NCR's economy grows at a slower pace in 2018

The economy of NCR grew at a slower pace by 4.8 percent in 2018 as compared with the 6.2 percent growth in the previous year. The main drivers for growth in 2018 were Trade; Public Administration and Defense; Financial Intermediation; and Real Estate, Renting and Business Activities.

Services, which shared 82.8 percent to the total economy of NCR slowed down to 5.8 percent in 2018 from 7.1 percent in 2017. Public Administration and Defense grew faster to 16.1 percent in 2018 from 9.5 percent in 2017 and Transportation, Storage and Communication to 4.7 percent in 2018 from 2.2 percent in 2017. Meanwhile, the following subsectors grew at a slower pace: Trade to 5.7 percent in 2018 from 8.2 percent in 2017; Financial Intermediation to 6.1 percent in 2018 from 7.4 percent in 2017; Real Estate, Renting and Business Activities to 4.0 percent in 2018 from 8.0 percent in 2017; and Other Services to 4.1 percent in 2018 from 4.5 percent in 2017.

Industry, accounting for 17.0 percent of NCR's economy decelerated to 0.5 percent in 2018 as compared with the 2.0 percent growth in 2017. This was attributed to the decline of Manufacturing by 3.4 percent in 2018. Manufacturing comprised more than two-thirds of the total Industry Sector. On the other hand, Construction rebounded to 16.9 percent growth in 2018. In 2017, it declined by 16.2 percent. Electricity, Gas and Water Supply accelerated to 3.5 percent in 2018 from 2.3 percent in 2017.

With just 0.2 percent share to the regional economy, AHFF slowed down to 0.4 percent growth in 2018 from 0.7 percent growth in 2017.

Of the 6.2 percent economic growth in the country, NCR remained the top contributor with 1.8 percentage points while accounting for 36.0 percent of the total GDP.

Cordillera's economy grows by 7.3 percent in 2018

The economy of CAR grew by 7.3 percent in 2018, slower than the 12.2 percent growth in 2017.

Industry accounted for more than half of the region's economy with 53.0 percent share, followed by Services with 39.7 percent and AHFF with 7.3 percent. The shares of Industry and Services to the total output of the region increased while the share of AHFF decreased.

Industry grew by 9.2 percent in 2018, slower than the 18.8 percent growth in the previous year. Manufacturing remained as the top contributor to growth as it grew by 9.4 percent, albeit slower than 19.6 percent growth recorded in 2017. Construction also slowed down but managed to grow by 15.7 percent in 2018. Electricity, Gas and Water Supply likewise decelerated to 4.3 percent growth from 5.7 percent in 2017. On the other hand, Mining and Quarrying declined by 15.0 percent during the period.

Meanwhile, Services accelerated to 7.5 percent in 2018 as compared with the 6.1 percent growth in the previous year. Sub-industries that grew faster include: Public Administration and Defense, 13.2 percent; Other Services, 9.5 percent; and Transportation, Storage and Communication, 6.8 percent. Meanwhile, the rest of the sub-industries also grew but at a slower rate as compared with the previous year: Real Estate, Renting and Business Activities, 4.5 percent; Trade, 5.8 percent; and Financial Intermediation, 7.6 percent.

AHFF contracted by 5.3 percent as compared with the 5.1 percent growth in 2017. The contraction was mainly due to the decline in Agriculture and Forestry by 5.5 percent.

Industry contributed the most to the region's overall growth rate with 4.8 percentage points, followed by Services with 2.9 percentage points. Meanwhile, AHFF pulled down the growth by 0.4 percentage point.

Ilocos Region's economy expands by 6.5 percent in 2018

The economy of Ilocos Region grew by 6.5 percent in 2018, faster than the 5.8 percent growth in the previous year. It was contributed by the acceleration of Services and Industry.

Services grew slightly faster by 6.8 percent in 2018, as compared with the previous year's growth of 6.7 percent. Among the Services, Public Administration and Defense grew the fastest with 14.2 percent. It was followed by Other Services with 8.5 percent and Financial Intermediation with 8.2 percent.

On the other hand, the following sub-industries grew but at a slower pace: Transportation, Storage and Communication, by 3.7 percent; Trade, by 5.0 percent; and Real Estate, Renting and Business Activities, by 5.1 percent.

Industry expanded by 11.9 percent in 2018 as all of its sub-industries except Manufacturing grew faster. Construction, remained as the biggest contributor to growth with its 16.2 percent increase as compared with the 11.5 percent growth in 2017. It was followed by Electricity, Gas and Water Supply, which grew by 12.1 percent; and Mining and Quarrying with 8.5 percent growth. Manufacturing, on the other hand, grew at a slower rate of 1.6 percent as compared with the 5.4 percent growth in the previous year.

Meanwhile, AHFF recorded a 2.3 percent decline in 2018, a downturn from the 2.4 percent growth it posted in 2017. Agriculture and Forestry as well as Fishing both contracted, by 2.1 percent and 3.0 percent, respectively.

Among the three major economic industries, Services continued to account for the largest share of the region's economy with 52.0 percent. Industry followed with a share of 30.2 percent in 2018. The share of AHFF dwindled to 17.8 percent in 2018 from 19.4 percent in 2017.

Services contributed the biggest share to the region's overall growth in 2018 with 3.5 percentage points closely followed by Industry with 3.4 percentage points. AHFF pulled down the region's economic performance by 0.4 percentage point.

Cagayan Valley's economy grows by 3.3 percent

Cagayan Valley's economy managed to grow by 3.3 percent in 2018 as compared with the 7.1 percent growth recorded in the previous year. The economic growth of the region was pulled down by the decline in AHFF.

In 2018, Services posted a faster growth of 10.5 percent from the 5.9 percent in 2017. The growth was mostly attributed to the upsurge of Other Services as it grew by 20.7 percent from 7.1 percent in 2017. This was coupled by the speed up in the growth of Public Administration and Defense by 13.3 percent from 6.9 percent in the previous year. The growth in Services is attributed to Financial Intermediation; Trade; and Real Estate, Renting and Business Activities with 8.4 percent, 6.6 percent and 5.3 percent, respectively. Meanwhile, Transportation, Storage and Communication also grew but at a slower rate of 3.7 percent.

Industry slowed down as it grew by 2.2 percent in 2018 as compared with the 13.8 percent expansion in 2017. Among the sub-industries, only Construction expanded during the period with 8.7 percent growth. Mining and Quarrying; Electricity, Gas and Water Supply; and Manufacturing all plummeted in 2018 with the declines of 8.8 percent, 3.0 percent, and 0.2 percent, respectively.

AHFF, which spurred the growth in the region's economy in 2017, caused a setback as it declined by 7.1 percent in 2018. This was due to the contraction in Agriculture and Forestry by 7.2 percent coupled with the decline in Fishing by 5.6 percent.
