

SPECIAL RELEASE

Unregistered Births in Montevista Population (2020 Census of Population and Housing)

Date of Release: 05 April 2024

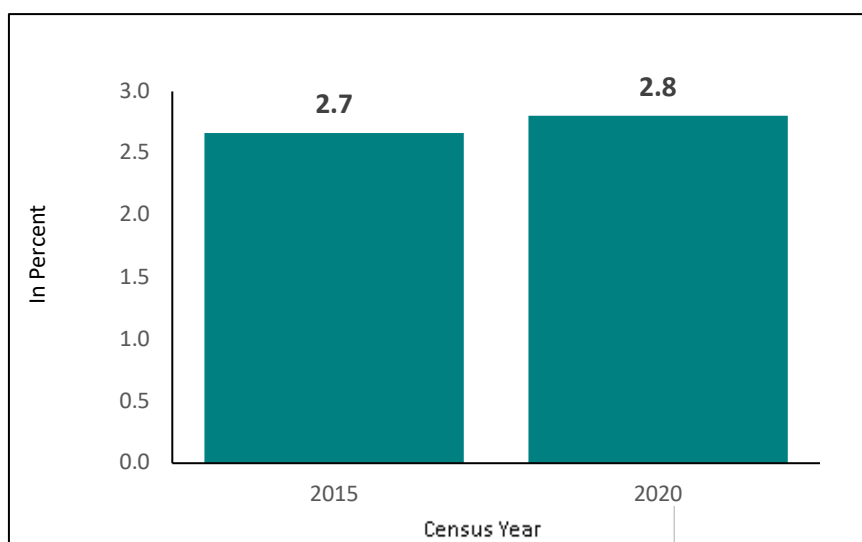

Reference No.: SR-241182-026

Proportion of persons with unregistered births in Montevista increases to 2.8 percent

The 2020 Census of Population and Housing (2020 CPH) revealed that a total of 1,298 persons of the household population in 2020 had their births unregistered with the Local Civil Registry Office (LCRO) of Montevista. This is equivalent to 2.8 percent of the 46,312 household population in 2020. (Figure 1)

Moreover, census results from 2015 to 2020 show an increasing trend in the proportion of persons with unregistered births, from 2.7 percent to 2.8 percent in 2020. The 2020 figure is higher by 0.1 percentage point. (Figure 1)

Montevista is 3rd lowest in the proportion of persons with unregistered births

In 2020, Davao de Oro reported a 3.6 percent of the household population whose births were unregistered with the LCROs. At the municipal level, Monkayo posted the highest with 5.5 percent of the household population. This was followed by Mabini with 4.9 percent and New Bataan with 4.5 percent. Two other municipalities posted a proportion higher than the provincial level, namely, Laak and Mawab. (Figure 2)

Meanwhile, Montevista recorded a proportion of 2.8 percent and ranked 3rd in the province with the lowest proportion of persons with unregistered births. (Figure 2)

On the other hand, Nabunturan posted the lowest proportion of persons with unregistered births (2.4%), followed by Pantukan (2.6%), Montevista (2.8%) and Maco (3.0%). (Figure 2)

Proportion of persons with unregistered births is highest in Lebanon; lowest in Banagbanag

Among the 20 barangays, Lebanon posted the highest proportion of the household population whose births were reported to be unregistered at 9.6 percent, corresponding to 116 persons out of the 1,206 household population in the barangay. It was followed by New Dalaguete with 6.9 percent (72 persons) and Camantangan with 6.0 percent (58 persons). (Table 1 and Figure 3)

Table 1. Percentage Distribution of the Household Population by Birth Registration Status and Barangay: Montevista, 2020

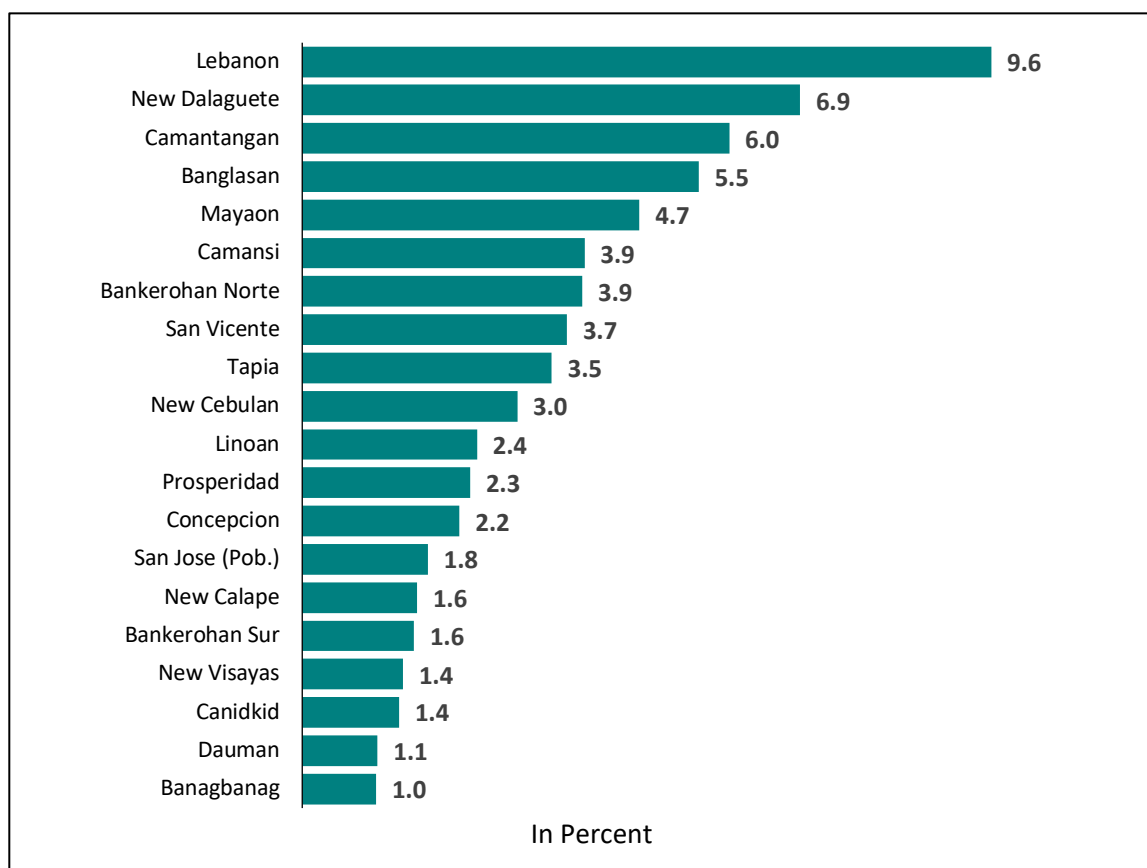

Barangay	Household Population	Birth Registration Status (Percent)		
		Births Registered	Births Not Registered	Don't know
MONTEVISTA	46,312	97.0	2.8	0.2

More females than males have unregistered births

Among the 1,298 household population whose births were unregistered with the LCRO, 49.3 percent (640) were males, while 50.7 percent (658) were females. This translates to a sex ratio of 97 males whose births were unregistered with the LCRO for every 100 females whose births were also unregistered. (Figure 4)

Figure 4. Distribution of the Household Population with Unregistered Birth by Sex: Montevista, 2020

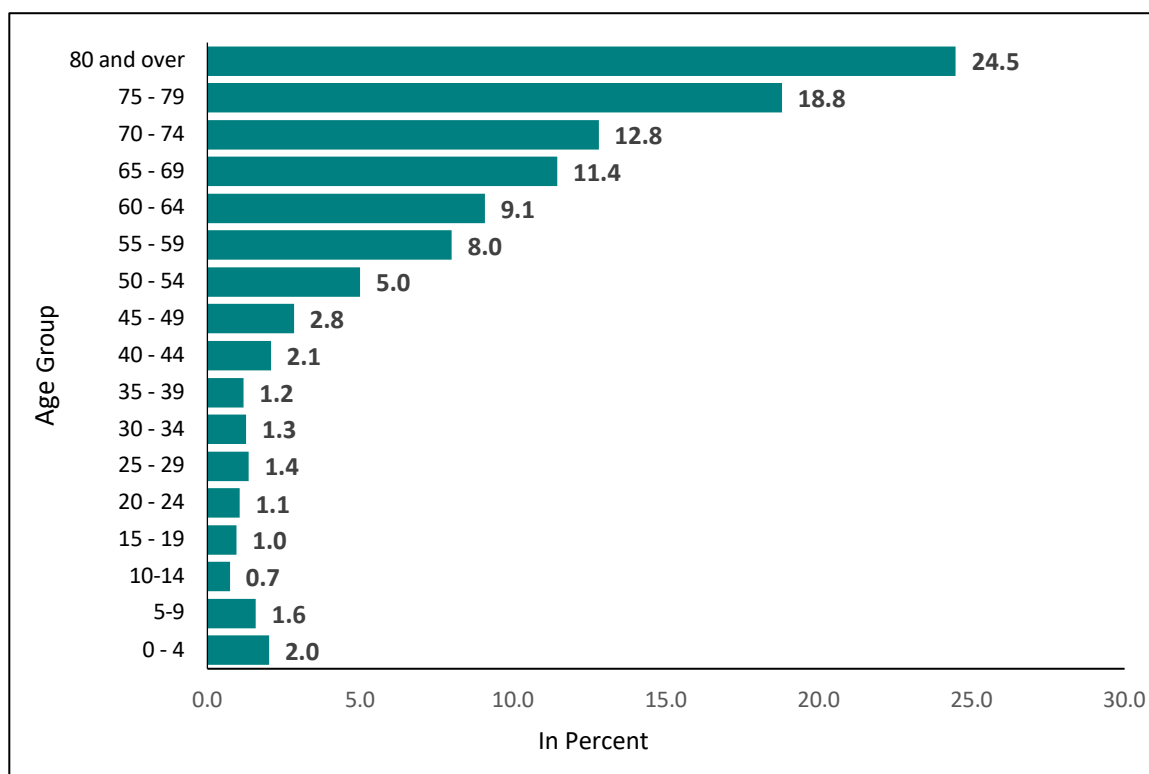

Source: Philippine Statistics Authority, 2020 Census of Population and Housing

At the barangay level, Lebanon which had the highest proportion whose births were unregistered with the LCRO, on the other hand, showed a higher percentage of males at 52.6 percent compared to females at 47.4 percent.

The oldest age groups post the highest proportions of unregistered births

Across age groups, the household population aged 80 years old and over had the highest proportion of unregistered births at 24.5 percent. The high proportion was also noted in the age group 75-79 years (18.8%), followed by those in the age groups 70-74 years (12.8%), 65-69 years (11.4%), and 60-64 years (9.1%). In contrast, the lowest proportion was recorded in the age group 10-14 at 0.7 percent (Figure 5)

Note: Bar size may differ due to rounding off.

In addition, about 13.0 percent or 503 persons out of 3,883 aged 60 years and above were reported in the census to have unregistered births. This means that 13 in 100 senior citizens have unregistered births. (Figure 5)

Lebanon posts the highest proportion of persons who never had a copy of their birth certificates

While 2.8 percent of the household population reported that their births were unregistered, about 5.8 percent reported that they never had a copy of their birth certificates. A total of 2,663 persons of the 46,312 household population were reported to never had a copy of their birth certificates. (Table 2 and Figure 6)

Table 2. Percentage Distribution of the Household Population with or without Copy of Birth Certificate by Barangay: Montevista, 2020

Province/Municipality	Household Population	Ever had a Copy of Birth Certificate (Percent)		
		With Copy of Birth Certificate	Without Copy of Birth Certificate	Don't know
MONTEVISTA	46,312	94.1	5.8	0.2
Lebanon	1,206	85.7	14.2	0.1

1. Technical Notes

TECHNICAL NOTES

The statistics presented in this Special Release were based on the answers and information provided by the respondent or any responsible member of the household to the questions on birth registration about all the household members.

For the 2020 CPH, birth registration data of all household members were collected by asking the respondents, “Was _____’s birth registered with the Local Civil Registry Office?” and “Has _____ ever had a copy of his/her birth certificate?”
