Technical notes:

- Labor Force Survey is a nationwide survey conducted by the Philippine Statistics Authority (PSA) to gather data on the demographic and socio-economic characteristics of the population.
- Details may not add up to totals due to rounding.
- The methodology for the computation of annual estimates of labor and employment indicators is based on the Philippine Statistics Authority (PSA) Board Resolution No. 14 Series of 2021 Adopting the General Method for Annualized Estimates for the Labor Force Survey 2021 and Beyond.
- Caution on the use of the statistics with Coefficient of Variation greater than 10% as these may not be reliable due to small observations.
- Annual 2023 estimates were based on the final estimates of January, February, March, April, May, and June 2023 LFS and preliminary estimates of July, August, September, October, November, and December 2023.
