Technical Notes

Poultry – a collective term for all domesticated avian for the purpose of food consumption or, the carcass of such avian are processed for human consumption.

Broiler – strains of foreign breeds of chicken, especially raised for meat purposes only.

Layer – foreign strain chicken regardless of age, raised mainly for egg production.

Native/Improved Chicken – a common backyard fowl that is a mixture of native breeds and foreign breeds which includes Banaba, Bolinao, Kabir, Bantam, Paraoakan, and Heritage Chicken such as Rhode Island Red (RIR), Barred Plymouth Rock (BPR), and Black Australorp (BA).

Animal Population (also Animal Inventory) – the actual number of animals (in head/bird) present in the farm as of a specific reference date regardless of ownership.

Household – A person or group of persons who sleep under the same dwelling unit and usually have a common arrangement in the preparation and consumption of food. The household members may not necessarily be related by ties of kinship, although they are usually relatives. In some instances, more than one household may occupy the same dwelling unit.

Establishment – an economic unit that engages under a single ownership or control, i.e., under a single legal entity; in one or predominantly one kind of economic activity at a single fixed physical location. Thus, stores, shops, factories, mining companies, electric plants, transport companies, radio stations, hotels, restaurants, banks, insurance companies, real estate development companies, and the like are considered establishments.

The following are the new farm classifications and definitions of chicken type based on the approved PSA Board Resolution No. 04, series of 2022:

Animal Type/ Classification	Definition
Broiler Chicken	
Smallhold	Raising 500 birds and below
Semi-commercial	Raising 501- 10,000 birds
Commercial	Raising 10,001 birds and above
Layer Chicken and Native/Improved Chicken	
Smallhold	Raising 250 birds and below
Semi-commercial	Raising 251- 5,000 birds
Commercial	Raising 5,001 birds and above
