

PRESS RELEASE

PSA RSSO XI Brings Convenient National ID Registration Through Caravan to Underserved Communities in Davao Region

Date of Release: 16 May 2025
Reference No. PR-25RSSO11-012

The Philippine Statistics Authority Regional Statistical Services Office XI (PSA RSSO XI) proudly announces the results of National ID registrations through its ongoing caravan initiatives across the Davao Region. This effort aims to provide faster and more accessible service for residents in remote and underserved areas.

By bringing registration services directly to communities, the caravan eliminates the need for long-distance travel, saving residents time and transportation costs. The streamlined on-site process ensures a hassle-free experience, allowing more Filipinos to secure their national IDs, vital documents for accessing government services, financial inclusion, and official transactions.

Through strong partnerships with local government units and partner agencies, the initiative has already registered **8,757** individuals, prioritizing marginalized groups who previously faced difficulties enrolling.

PSA encourages all eligible Filipinos to take advantage of these National ID caravan opportunities and register for the National ID System. The caravan will continue to visit different areas, providing residents with access to a simple and convenient process for obtaining their National IDs.
