Republic Act No. 11055, or the Philippine Identification System Act, signed into law by President Rodrigo Roa Duterte on August 6, 2018, aims to establish a single national identification system for all citizens and resident aliens of the Republic of the Philippines. The valid proof of identity provided by the PhilSys shall be a means of simplifying public and private transactions, and shall be a social and economic platform that promotes seamless social service delivery and strengthens financial inclusion for both public and private services. As a foundational digital ID system, the PhilSys will transform how services are delivered in the Philippines, and accelerate our transition into a digital economy, including to enable presence-less, paperless, and cashless transactions.
