TECHNICAL NOTES

INFLATION RATE is the annual rate of change or the year-on-year change in the CPI expressed in percent. Inflation is interpreted in terms of declining purchasing power of the peso.

CONSUMER PRICE INDEX (CPI) is an indicator of the change in the average retail prices of a fixed basket of goods and services commonly purchased by households relative to a base year.

PURCHASING POWER OF PESO (PPP) shows how much the peso in the base year (2018) is worth in another period.
